EDUCATION

- Bachelor of Science (Computer Science)

  Rajamangala University of Technology Suvarnabhumi, Hantra Campus

  2016 - 2019

- Vocational Certificate in Information Technology

  Phra Nakhon Si Ayutthaya Technical College

  2013 - 2016

TECHNICAL SKILLS

- **PROGRAMMING LANGUAGES**

Javascript, Typescript, Go (Basic), SQL, HTML, CSS, SCSS

- **FRONTEND**

React, Vue.js, Angular

- **BACKEND**

Node.js, Express.js, NestJS

- **DATABASE**

Microsoft SQL Server, MongoDB, MySQL, PostgreSQL

- **ORM**

Prisma

- **CLOUD & DEVOPS**

Docker, Google Cloud Platform (Cloud Run, Cloud SQL, Cloud Storage), Git, GitHub Actions, GitLab CI/CD

- **TOOLS**

VSCode, Postman, Figma

LANGUAGES

- Thai, English

PROFESSIONAL SUMMARY

Software Developer with 7+ years of experience, specializing in backend development with Node.js, Express.js, NestJS, and TypeScript for 5+ years, along with 2+ years of full-stack development experience.

Experienced in designing and developing production-ready REST APIs, databases, and core business logic, as well as end-to-end system development from frontend to backend and deployment, with a strong focus on performance, stability, and long-term maintainability.

WORK EXPERIENCE

PROGRAMMER (BACKEND DEVELOPMENT)

Auto Fast Co., Ltd *2021 - Present*

- Designed system architecture and flow diagrams, and collaborated with frontend developers on end-to-end system development.
- Analyzed and designed REST APIs, databases, and business logic.
- Developed backend services and performed API testing.
- Implemented CI/CD pipelines and deployed applications to Google Cloud using Docker.
- Maintained production systems, troubleshot issues, and optimized software performance after deployment.

PROJECT

- Automotive Service Center (POS): Managed customers, vehicle information, products and inventory, purchase orders, goods receiving, work orders, reporting (Excel, PDF), and dashboards.
- Pricelist Management: Implemented multi-level price approval workflows with email notifications and price data export.
- E-Learning: Implemented authentication via SMS/Email OTP, training video playback, exam result recording, ranking calculation, and access control management.

SOFTWARE DEVELOPER

Cyber Advance System and Network Co., Ltd *2019 - 2021*

- Analyzed and designed systems using Microservice Architecture.
- Developed full-stack web applications by designing REST APIs with Node.js and developing user interfaces with Angular.
- Designed and managed NoSQL databases using MongoDB.

FREELANCE PROJECT

Transport Management POS

- Analyzed customer requirements and business needs, and collaborated with the team to design the overall frontend and backend system architecture using Figma.
- Developed backend services using NestJS and managed the database using Prisma.
- Implemented CI/CD pipelines with Gitlab CI/CD and deployed applications to Google Cloud using Docker.
- Utilized Google Cloud Run, Cloud SQL, and Cloud Storage.
- Delivered the system to the customer for production use according to the agreed scope.
